The Guy From Just Around the Corner

stops by.

"How are you doing?" I

"Everything is nearly co-

pacetic. Much fog in autumn, much snow in winter. I don't know what much snow in autumn fore-

tells about snow in winter. My old football injury still acts up. It hurts whenever the Vikings lose. I don't know why I lie around the house like a big pile of cats and watch them. Still Bill, you have to drive stakes by him to see if he's moving, got himself a Sitbit and accompanied me as I went to an 'Antiques Roadshow' filming to have my father appraised. He had some value until Ma told the appraiser that Pop snores so loud, he can't hear his own

dreams." **Naturally**

A large flock of blackbirds brain and gravity was a law

My neighbor Crandall that didn't apply to them. White-throated sparrows whistled up memories of past falls.

> Spiderwebs were numerous, welcoming flying insect guests. Instead, they gathered leaves the wind had peeled from trees. A couple of days before an early October snow, I watched ants at work. Myrmecology is the scientific study of ants and is a branch of entomology. Ants might not find snow the thrill of their lives. Count the number of days from the first snowfall until Christmas. This number is the number of snowfalls to expect — or not. An ant didn't tell me that.

> I watched a scuttle fly scurry like a tiny (my guess is 1/16 to 1/8 inch in size) Olympic sprinter across a kitchen countertop. This fly tends to dart instead of flying. They don't bite and are associated with decaying organic matter.

Q&A

"Do birds ever get migramoved through the air as tory headaches?" I'm sure though each bird shared a they do when they deal with delayed and canceled flights.

"I saw a robin that was half white. What is that called?" It's called leucism and is manifested in a partially, mostly or completely white animal. Piebald is an example of leucism. The eyes retain their natural color in leucistic animals whereas the eyes are pink in animals with albinism. Albinos are much rarer. Leucism is a condition caused by a partial loss of pigmentation.

"What is the world's smallest bird?" It's the bee hummingbird found in Cuba. It weighs less than a dime.

"How did the downy woodpecker get its name?" American colonial naturalist Mark Catesby gave the species its common name, with "downy" being a reference to the soft feathers of the white stripe on the lower back, in contrast to the similar, but more hairlike feathers on the lower back of the larger hairy woodpecker. The hairy has a distinctly longer bill.

"Are there any state record sized trees in southern Minnesota?" You bet there are. The DNR has a Big Tree

Registry that includes the state's 52 native species. The largest trees are determined by circumference, height and crown spread. Here are the largest trees with heights in feet by county. Faribault: ironwood 37 and eastern red cedar 68. Fillmore: white ash 87 and eastern white pine Wabasha: American hornbeam 31, black oak 69 and chinkapin oak 18. Waseca: hackberry 84. The DNR requires a completed form and a photo for a tree to be considered for Minnesota's Big Tree Registry.

skunks as great horned owls do. The barred owl is opportunistic in its feeding habits and preys upon fish, reptiles, amphibians, birds, mice, squirrels, chipmunks, frogs, rabbits and insects. I don't doubt it would take a skunk out to lunch, but maybe not a full-grown adult. Great horned owls will eat barred owls.

Natural happenings

- 1. Gray squirrels build leafy nests called dreys.
- 2. Thirteen-lined ground squirrels begin to hibernate.
 - 3. Cattails shed seeds.
- 4. Short-tailed weasels begin to change color from brown to white. This weasel is also known as an ermine.
 - Trip essentials
 - 1. Comfortable shoes.

National Red Ribbon

What is Red Ribbon Week?

The Red Ribbon Campaign is the oldest and largest drug prevention program in the nation, reaching millions of young people during Red Ribbon Week each year.

This is an ideal way for people and communities to unite and take a visible stand against drugs. The Red Ribbon Campaign was started when drug traffickers in Mexico City murdered DEA (Drug Enforcement Administration) agent Kiki Camerena in 1985. This began the continuing tradition of displaying Red Ribbons as a symbol of intolerance towards the use of drugs.

Talk about tough subjects like drinking, vaping or smoking and abusing prescription drugs:

- Listen carefully and be respectful of others' feelings
- Maintain open lines of communication
- Set clear and consistent rules and expectations
- Repeat your expectations early and often
- Role-play ways to say "NO" to peer pressure

KEEP YOUR FAMILY SAFE!

If you don't properly dispose of your unused prescriptions in your home they may end up in the wrong hands.

Disposal packets for prescription drugs are available at most pharmacies. Disposable Deterra bags are also available at the law enforcement center.

What's Cooking

with Kathy Lloyd

Love Side Dishes!

This morning I am going to pay my little great granddaughters, Lydia and Nora a visit, we snuggle and read books, the perfect weather for both activities! Its weather like this that also starts me thinking about Holiday menus! I love onions and can't imagine cooking without them. I recently found a side dish recipe in the Paula Deen magazine for roasted onions that I think would be perfect as a side dish for any Holiday menu. I hope that you will enjoy it too!

Glazed Roasted Onions

- 2 tablespoons olive oil
- 2 1/2 pounds assorted medium onions, peeled and quartered
 - 6 tablespoons chicken broth
 - 3 tablespoons sherry vinegar
 - 1 1/2 Tablespoons firmly packed light brown
 - 1 1/2 teaspoons chopped fresh thyme
 - 1 1/2 teaspoons chopped fresh rosemary
 - 1 teaspoon kosher salt
 - 1/4 teaspoon ground black pepper
 - 1/4 teaspoon crushed red pepper, optional
 - 3 tablespoons butter, cubed

Preheat oven to 350 degrees

In a 12 inch cast-iron or oven proof skillet, heat oil over medium- high heat, Add onions; cook turning once, until browned, 3-4 minutes per side. Remove from heat. In a medium bowl, whisk together broth, vinegar, brown sugar, thyme, rosemary, salt and pepper until sugar is dissolved. Add broth mixture to onions, turning to coat. Place butter pieces around onions. Bake until tender about 25 minutes, gently stirring occasionally to prevent sticking. Spoon glaze onto onions when serving. Garnish with fresh rosemary, if desired.

Have a great week!

ast week Karis and I traveled to Door County, Wisconsin for a vacation and thoroughly enjoyed the fall colors and the many orchards and wineries on the peninsula. Toward the latter part of the week, we decided to visit Cana Island Lighthouse, which is located just north of Bailey's Harbor. When we arrived at the site, we found that the island was completely surrounded by water and we both wondered how we would get to the island (without getting wet anyway). All of a sudden a John Deere tractor and

wagon came off the island and drove on an underwater roadway of rocks to take us back across to visit the island. It was quite windy that day and water levels were high because of recent rainfall, so it made for an interesting ride "on the water"

being pulled by a John Deere. I asked the driver if he ever had the tractor stall in the middle and he said he hadn't, but another driver once

> got the tractor hung up on some rocks and they had to get a bulldozer to pull it out of the water. If you have never been to Door County in the fall, it is a mustsee.

"What is it?" and last week's mysteries

Paul Peters of rural Ceylon was the first person to correctly answer last week's "What is it?" item. He identified it as a "spanner wrench" and also said it was an uncommon one at that. So there you have it. Also last week, I asked if anyone could identify what business was located next to the Iron Grill in Fairmont that excavations uncovered a foundation. Lloyd Mau identified it as the Champlin Gas Station from the 40's and George Jones identified it as

Grant Oil Company (where he worked at through high school). I also asked you to identify the tavern that used to be located where International Ag Labs currently is located (across from the National Guard Armory in Fairmont). Helen Rode of Welcome identified it as "Piddler's Tavern". Thanks for all those who put in their guesses. I'll have to see if I can find more things like that in the future. Since I have run out of "What is it?" items I will not have one this week. Do you have an item you think would be good to have in this column? Just bring it in and we will take

planning an escape route during a blaze. While the campaign lasts the entire month, most police and fire departments designate the second week of October as Fire Prevention Week, during which demonstrations and expos are held in different U.S. cities.

Sponsored by the National Fire Protection Association (NFPA), Fire Prevention Month has roots that date back to The Great Chicago Fire of 1871 that killed more than 250 people and left more than 100,000 homeless. The fire, which was reportedly started in a barn, also burned more than 2,000 acres and destroyed

about 17,400 structures. The three-day fire, which started October 8, did most of its damage on October 9, 1871, which is why Fire Prevention Week is always held around that date. The first National Fire Prevention Day was declared by President Woodrow Wilson in 1922, and the week-long observance is the longest running public safety and health campaign on record.

In 2000, the NFPA extended Fire Prevention Week to include the entire month of October, and entities such as public libraries, schools and utility companies joined in to spread the word not only about fire safety and prevention, but overall personal safety.

Fire Prevention **Themes**

Each year, a nationwide theme is chosen and localities gear their campaigns toward it. Some of them include:

- "Practice Your Escape Plan" (2007)
- "Home Cooking Fires: Watch What You Heat!"

•"Use Candles with Care - When You Go Out Blow Out!" (2005)

•"Test Your Smoke

Alarms" (2004) • "When Fire Strikes,

Get Out!" (2003) •"Team Up For Fire Safety" (2002)

 "Cover the Bases and Strike Out Fire" (2001)

you own some investments that have lost value since you purchased them, selling them would generate capital losses that could be used to offset capital gains. Further, if you have more losses than gains, you can use up to \$3,000 of your losses to offset ordinary income.

Keep in mind that selling an investment may change the allocation and performance of your portfolio. Also, just because an invest-

ment is down in value is not necessarily a reason to sell. And once you sell an investment to generate a capital loss, you need to wait at least 31 days to repurchase it to avoid incurring what's known as a "wash sale." Your financial professional can help you determine if selling any investments makes sense for your situation.

Before making any of these moves, you'll also want to consult with your tax professional. And remember that while taxes are a consideration, they should
